SWISS POST 

Improving the world through engineering

The letter centre in west Zürich sorts 4.7 million letters per day. With two storeys providing a massive 140 000 m² floor area, it is one of the biggest buildings in Switzerland.

Join the IMechE's Switzerland Group on a visit to find out how millions of letters are sorted at high speed using the latest technology.

This visit has been kindly organised by Angela Louie.

Please note, no car parking is available on site.
