

6th International Conference on Complex Systems Design & Management

■ ■ December 2-4, 2015 - Paris, France

CSD&M is an international 3-day conference dedicated to all academic and industrial actors working on complex industrial systems modelling and engineering. This major event covers the field of complex systems sciences and practices and is placed under the high patronage of the French Minister of the Economy, Industry and the Digital Sector.

Important dates

- Abstract submission (optional): March 22, 2015
- Paper submission: April 12, 2015
- Results announcement: June 2, 2015
- Final versions for publications: July 3rd, 2015
- Conference: December 2-4, 2015
- «Best papers» awards: December 4, 2015

Submissions Results

Selected papers will be presented either as a 30-min talk or as a poster. The best academic/ industrial paper and the best student paper (i.e. written by students in majority) will be awarded respectively with 2.000€ and 1.000€.

Submission Format

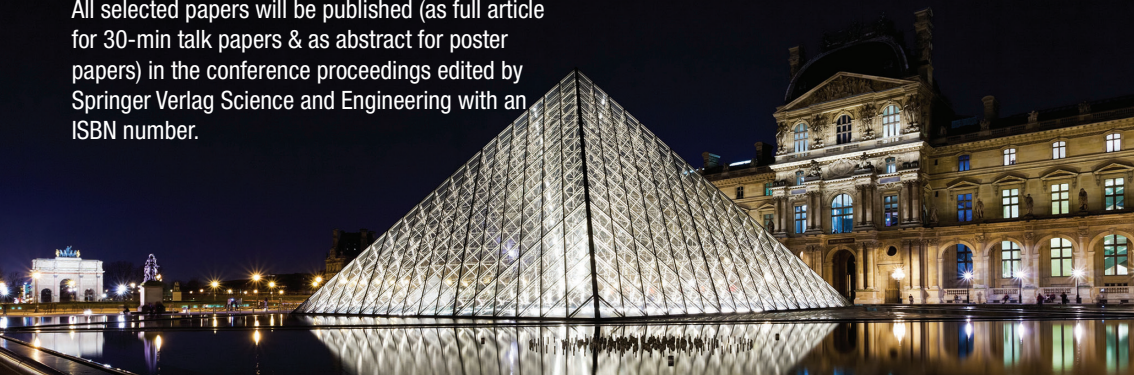

- Industrial (good practices, shared experiences & case studies): 12-page PDF-formatted paper or 15-slide PPT presentation.
- Academic (innovative methodological, technical or scientific results): 12-page PDF-formatted paper.

Publications

All selected papers will be published (as full article for 30-min talk papers & as abstract for poster papers) in the conference proceedings edited by Springer Verlag Science and Engineering with an ISBN number.

Themes to be covered

- **Industrial domains:** constructors & operators of transportation systems, defence & security, aeronautics & aerospace, electronics & robotics, energy & environment, health care & welfare services, media & communications, software & e-services.
- **Scientific and technical topics:** systems fundamentals, systems architecture, systems engineering, industrial projects, systems metrics, systems quality, systemic tools.
- **Systems types:** embedded systems, transportation systems, software systems, information systems, systems of systems, artificial eco-systems.

GENERAL CHAIR

Daniel Krob, Ecole Polytechnique, CESAMES - FR

ORGANIZING COMMITTEE

Jean-Claude Bocquet, Centrale-Supélec - FR

Marc Aiguier, Ecole Centrale de Paris - FR

Anas Alfaris, CCEs & MIT - SA

Emmanuel Arbaretier, APSYS (EADS) - FR

Frédéric Boulanger, Centrale-Supélec - FR

Guy Boy, Florida Institute of Technology - US

Cihan Dagli, Missouri University of Science and Technology - US

John Fitzgerald, Newcastle University - UK

Pascal Foix, Thales - FR

Chahinez Hamlaoui, Systematic Paris Région - FR

Paul Labrogère, IRT SystemX - FR

Garry Roedler, Lockheed Martin - US

François Stephan, IRT SystemX - FR

Nicolas Trèves, CNAM - FR

Jon Wade, Stevens Institute of Technology - US

David Walden, Sysnovation & INCOSE - US

PROGRAM COMMITTEE

Academic members

Eric Bonjour, Université de Lorraine - FR (co-chair)

Vincent Chapurlat, Ecole des Mines d'Alès - FR

Eric Coatanea, Aalto University - FI

Olivier de Weck, MIT - US

Timothy Ferris, UNISA - AU

Alfredo Garro, University of Calabria - IT

Nil Anden Ergin, Penn State University - US

Paulien M. Herder, University of Delft - NL

Michael Henshaw, Loughborough University Leicestershire - UK

Claude Laporte, ETSMTL - CA

Eric Levrat, Université de Lorraine - FR

Maik Mauer, TUM - GE

Patrick Millot, LAMIH - FR

Chris Paredis, Georgia Institute of Technology - US

Brian Sauser, University of North Texas - US

Dinesh Verma, Stevens Institute of Technology - US

CSD&M 2015

December 2-4, 2015

Paris - France

In practice

- A 3-day international conference in Paris
- 12 international keynote speakers & 300 participants
- Panels, tutorials & poster workshop
- A systems architecture and engineering tools session
- Coffee breaks, cocktails and dinner for networking

Industrial members

Gérad Auvray, Astrium ST - FR (co-chair)

Richard Balsey, Rolls Royce - UK

Henrik Balslev, Systems Engineering Denmark ApS - DK

Jean-Pierre Daniel, Areva - FR

Alain Dauron, Renault - FR

Gauthier Fanmuy, Dassault Systèmes - FR

Sanford Friedenthal, Lockheed-Martin - US

Mike Johnson, RUAAG - CH

Jörg Lalk, Pebble Bed Modular Reactor - ZA

Juan Llorens, The Reuse Company - ES

David Long, Vitech - US

Clotilde Marchal, EADS - FR

Garry Roedler, Lockheed Martin - US

Jean-Claude Rousset, Airbus Group Innovation - FR

Sven-Olaf Schulze, LINITY AG - DE

Robert Swarz, MITRE - US
